## About Intertunnel

The third in this series of highly successful exhibitions of tunnelling technology, equipment and services with the focus on the very latest in systems for constructing, equipping and operating tunnels and underground spaces in Russia.

Held with the support of the Russian Tunnelling Association and the Ministry of Transport, INTERtunnel Russia is being staged during a period of unprecedented long-term investment in the country's infrastructure network. Investments that will eventually total RUR 13.7 trillion (USD 420 billion) are under way as Russian Railways continues to implement its 'Strategy for Railway Development up to 2030'. This includes development of the tunnelling sector.

## Why visit

Tunnelling, construction and transport professionals from all areas of the industry will be able to meet members of the international community. Among them will be:

- Representatives of national and regional government agencies
- Highways authorities
- Main line and urban rail infrastructure authorities
- Public utilities
- Civil engineering, consulting and construction companies
- Tunnel operations and maintenance organisations
- Safety and security specialists

## Show Catalogue

The Official Show Catalogue listing all the products and services showcasing at the event will be available to pick up at the Registration Desk for every visitor to the show.

## Show Categories

The main areas covered by the exhibition are:

- Tunnel construction equipment, materials and plant
- Microtunnelling and trenchless technologies
- Fire protection and other safety systems
- Communication and security systems
- Pollution control and ventilation equipment
- Electrical and lighting systems
- Consultancy and design services

## Exhibiting at Intertunnel Russia

Exhibiting at INTERtunnel Russia 2010 provides the ideal opportunity to establish a presence in Russia's fast-developing tunnel market. For late stand availability contact the Organisers as soon as possible on

Tel: +44 1727 814 400  
 Fax: +44 1727 814 401  
 E-mail: [intertunnelrussia@mackbrooks.com](mailto:intertunnelrussia@mackbrooks.com)

## Transport Congress

The third Transport Congress will provide a unique insight into the future direction of the rail industry and tunnel construction market in Russia.

Transport Congress 2010 will feature an opening plenary session with presentations by key figures from the Ministry of Transport and senior representatives of government transport agencies. These presentations will outline Russia's transport strategy and the background legislative environment, as well as the technical challenges faced by the industry. The plenary session will precede the formal opening of INTERtunnel Russia 2010 on 17 March. During the afternoon, delegates will have a choice of attending in-depth conference sessions and round table discussions.

For more information, please contact:  
 Ms Natalia Charman

## Exporail 2010

The fourth International Railway Technology Exhibition Exporail 2010 will take place alongside INTERtunnel Russia 2010.

Exporail will attract rail professionals from the entire railway manufacturing and supply industry in Russia, its neighbouring countries and Western Europe.
